

A horizontal row containing five groups of boxes. Each group consists of a vertical column of four empty squares. These groups are intended for students to draw tally marks in.

A horizontal row of 10 empty rectangular boxes, followed by a group of three sets of 5 empty rectangular boxes. This visual representation is used for a math worksheet where students are asked to count and write the total number of boxes.

 - TruLaser Cell 8030

□ □ □ □ □ □

- The diagram consists of two horizontal rows of ten empty rectangular boxes each. The first row is preceded by a yellow square at its left end. The second row is preceded by a green square at its left end.

TecPro Metall GmbH, a company with a tradition of over 100 years, has now invested in a new laser cutting system from TRUMPF. The new TruLaser Tube 5000 fiber, TruLaser Tube 7000 fiber and TRUMPF transfluid® software will significantly increase efficiency and reduce costs. "We are very pleased with the new equipment and the support we received from TRUMPF," says Christian Schmid, Managing Director of TecPro Metall GmbH. "The new system will help us to further develop our business and stay competitive in the market."
