Advance press conference for Blechexpo 2023: TRUMPF focuses on these topics

TRUMPF will be showcasing a new fully automatic punch laser machine at Blechexpo in Stuttgart from November 7th 2023 – the TruMatic 5000. At the advance press conference for the trade fair, machine tool CEO Stephan Mayer reveals the strategy that the high technology company is pursuing with the new high-tech machine and how the solution supports companies in terms of digitalisation.

In the press briefing, Stephan Mayer also explains how the new machine differs from the fully automatic TruLaser Center 7030 and how German and international sheet metal manufacturers are positioned with respect to the topics of automation and digitalisation.
