Pre-press conference for Blechexpo 2023: TRUMPF focuses on these topics

TRUMPF will be showing a new fully automatic punching laser machine at Blechexpo in Stuttgart starting November 7, 2023 - the TruMatic 5000. At the pre-show press conference, Machine Tool CEO Stephan Mayer will reveal what strategy the high-tech company is pursuing with the new high-tech machine and how the solution supports companies in terms of digitization.

In the press briefing, Stephan Mayer also explains how the new machine differs from the TruLaser Center 7030 fully automatic laser machine and how German and international sheet metal manufacturers are positioned when it comes to automation and digitization.
